Content Details	
Key Benefits	<ul style="list-style-type: none"> • Offers a complete function building for the project management field • Explains a reference model in which the various functions and corresponding competences and the relations between them are presented • Based on the IPMA 4-level system
Summary	Developments in the project management field are ongoing. This professional field

	<p>continuously broadens and becomes profounder. Therefore, IPMA has extended its attention from project management to program management, portfolio management and project support (PMO).</p> <p>This has made manifest the need for a reference model in which the various functions and corresponding competences and the relations between them are presented. Not only for HR managers, but also for project and program managers and PMO heads.</p> <p>In the first edition of this book, attention was given to the regular functions in the project management field, as they are applied in the IPMA 4-level system. With the publication of this second edition, the wish has been realized to make a complete function building for the project management field available.</p> <p>The second edition of this book does justice to PMO professionals' needs for recognition and appreciation of their added value for projects, programs and portfolios.</p> <p>This is a publication of IPMA-NL.</p>
Table of Content	<p>1 Introduction</p> <p>2 Project, program and portfolio framework</p> <p>2.1 Primary roles and functions</p> <p>3 The PMO framework</p> <p>3.1 Combining project management and project support offers the key to project success</p> <p>3.2 Why projects fail</p> <p>3.3 What we can do about it</p> <p>3.4 What is a PMO?</p> <p>3.5 What kind of service does a PMO provide?</p> <p>3.6 How does a PMO add value?</p> <p>3.7 PMO types</p> <p>3.8 The PMO reference model</p> <p>3.9 PMO roles and functions</p> <p>4 The reference competence model</p> <p>4.1 What are competences?</p> <p>4.2 Structure of the GTP competence model .</p> <p>4.3 Task, Activity and Competence</p> <p>4.4 Adaptation</p> <p>5 A generic PM Competence Model</p> <p>5.1 The ICB and NCB version 3 of IPMA</p> <p>5.2 The development of a generic PM competence model</p> <p>5.3 The PM competence model for primary roles and functions</p> <p>5.4 The PM competence model for supporting roles and functions</p> <p>5.5 The link between primary and supporting roles and functions</p> <p>5.6 Integrated PM Competence Model .</p> <p>6 Competence profiles for individual roles and functions</p> <p>7 Conclusions</p> <p>8 Recommendations .</p> <p>Annex A.
